# SOVIET SOIL SCIENCE

## Volume 23

## Contents for 1991

### Number 1

**Genesis and Geography of Soils**

P.P. Kerzum, A.V. Rusakov, and N. Matinyan: Geomorphic Position of Paleosols and Aspects of Holocene Soil Evolution in the Central Russian Plain 1

I.S. Urusevskaya, T.V. Solov'yeva-Volynskaya, and V.O. Targul'yan: Anthropogenic Soils of Valaam Island 11

A.P. Chevychelov, A.K. Konorovskiy, and Kh. Ziger: Genetic Identity of Residual-Calcareous Soils of Southern Yakutia 24

A.Z. Baranovskiy: Alteration of Peat Bog Soils by Cropping with Perennial Grasses 35

A.Kh. Gazizullin and B.D. Khasanshin: Brown Forest Contact-Gleyed Soils Formed on Binary Deposits in the Middle Volga Region 43

D.I. Kovalishin: Evidence for Modern Day Podzolization in the Forest-Meadow Zone of the Ukrainian SSR 54

B.I. Gasanov and G.I. Mamedova: Changes in the Composition and Properties of Cinnamon Soils after Prolonged Use 69

**Forest Soil Science**

L.G. Bogatyrev: Classification of Forest Litter 79

M.R. Tsobel': Changes in Brown Pseudopodzolic and Peaty Gley Podzolic Soils after Forest Clear-Cutting 89

**Soil Mineralogy**

R.P. Narokova: Experimental Study of the Stability of Primary Silicates under a Periodically Leaching Regime of Soils 98

O.R. Leporskiy, S.N. Sedov, S.A. Shoba, and V.N. Bgantsov: Role of Freezing in Comminution of Primary Minerals of Podzolic Soils 107

**Soil Pollution**

L.A. Rerikh and I.T. Moiseyev: Effect of Principal Agrometeorological Factors on Uptake of Radiocesium by Plants 112

V.L. Anan'yan: Effect of Fertilizers on the Accumulation of Uranium by Herbaceous Plants in Various Natural Zones of Armenia 118

A.A. Bulgakov, A.V. Konoplev, V.Ye. Popov, and A.V. Shcherbak: Removal of Long-Lived Radionuclides from the Soil by Surface Runoff Near the Chernobyl Nuclear Power Station 124

## Number 2

### Soil Biology

R.R. Kabirov: Response of Soil Algae to the Amendment of Polymers during Chemical Melioration 1
Yu.G. Gel'tser: Indices of Biological Activity in Soil Investigations 6

### Soil Chemistry

A.A. Ponizovskiy and S.A. Ivanova: Influence of the pH on the $Ca^{2+}$–$Na^{+}$ Ion Exchange Equilibrium in Soils 20
T.P. Malygina and L.M. Mironenko: Dynamics of the Mineralization and Humification of Clover under Model Conditions 28
L.Yu. Goncharova, O.S. Bezuglova, and V.F. Val'kov: Seasonal Dynamics of Humus Content and Enzymatic Activity of Calcareous Ordinary Chernozem 40

### Soil Erosion

V.D. Ivanov, Ye.V. Kuznetsova, and V.G. Popov: Erosivity as a Function of Rainfall Intensity and Soil Permeability 48
G.L. Shchepashchenko, M.O. Soka, and M.R. Riverol': Classification and Identification of Eroded Cuban Soils 59

### Soil Pollution

F.A. Tikhomirov, A.I. Shcheglov, O.B. Tsvetnova, and A.L. Klyashtorin: Geochemical Migration of Radionuclides in Forest Ecosystems within the Radioactive Contamination Zone of the Chernobyl Nuclear Power Plant 66
B.S. Prister, N.P. Omel'yanenko, and L.V. Perepelyatnikova: Migration of Radionuclides in Soil and Their Transfer to Plants within the Zone of the Chernobyl Nuclear Power Plant Accident 76

### Soil Physics

V.S. Zuyev, O.V. Romanov, N.L. Makarova, and V.Ye. Vladimirov: Changes in Hydrosorption Soil Properties Caused by Physical and Physicochemical Impacts 87
A.A. Zakharin: Details of Aqueous-Salt Exchange in Plants under Conditions of Salt Stress 98
E.Yu. Nabiyev and S.B. Guseynov: Dependence of the Thermal Diffusivity of Soils on Moisture and Physical Clay Content 109
V.P. Kalinichenko, M.B. Minkin, and S.V. Balabanov: Hydrogeologic Characteristics of Moisture Transfer and Structure of Soil Cover of the Lower Don 115

## Number 3

### Genesis and Geography of Soils

A.L. Aleksandrovskiy, V.O. Targul'yan, A.Ye. Cherkinskiy, and O.A. Chichagova: New Data on the Age and Evolution of Sod-Podzolic Soils of the Central Russian Plain 1

### Soil Biology

I.K. Khabirov and Yu.G. Kuvatov: Kinetics and Thermodynamics of the Enzymatic Hydrolytic Reaction of $^{14}C$-Labeled Urea in the Soils of the Western Foothills of the Urals 6

### Forest Soil Science

G.I. Ushakova: Effect of Fertilizers on the Chemical Composition of Lysimetric Water from the Floor of Spruce Forests 18

### Soil Chemistry

V.N. Pereverzev and Ye.A. Koshleva: Phosphorus in Podzolic Soils of Different Textures 28

### Soil Pollution

V.F. Drichko and V.V. Tsvetkova: Sorption Model of Radionuclide Uptake from Soil by Plants 36

Ye.A. Stepanova, Ye.M. Korobova, D.S. Orlov, and I.V. Petrovskaya: Lead in Soils of the Remote Zone of Influence of the Chernobyl Accident 42

I.D. Dergunov, V.S. Shevchenko, and N.V. Kriushin: Migration of Radionuclides throughout the Profile of Certain Soils of Uzbekistan due to Irrigations by Leaching 51

### Soil Physics

V.G. Onishchenko: Temperature Criteria of Similarity of the Thermodynamic Characteristics of Soil Moisture 56

### Soil Melioration

F.R. Zaydel'man and I.Yu. Davydova: Effects of Irrigation on Properties of a Typical Chernozem Irrigated with Sulfate Waters 65

### Methods

D.I. Berman, A.V. Alfimov, and A.A. Poploukhin: Method and Equipment for Measuring Lateral Flow in Frozen Soils 77

P.K. Kuz'mich, N.A. Klimenko, and S.I. Veremyenko: Determination of Soil Biological Activity 81
V.N. Krasyukov and I.A. Lapin: Study of Humus Substances by the Method of Exclusive (Liquid) Chromatography on Porous Glasses 86
A.M. Shkaruba: Devices for Measuring the Electrokinetic Potential of Soils and Their Surface Conductivity 96
A.G. Fragin: Comparison of Two Methods for Determining the Specific Surface of Soils from Low-Temperature Nitrogen Adsorption 99
A.V. Zhurov: Preparation of Polished Sections for the Study of Soil Pores and Their Differentiation by Size 102
M.N. Chelnokova and T.G. Gertsen: Chemical Atomic Emission Method of Determining Niobium and Tantalum in Soils 107
Yu.Ya. Spiridonov, Yu.M. Matveyev, V.G. Shestakov, and M.V. Kolupayev: Mathematical Model for Describing Herbicidal Activity as a Function of Soil and Climatic Factors 111
Ye.V. Fridland: Use of the AS-7932 Express Analyzer for Determining Sulfur in Soils 116
V.N. Dyadechko, L.Ya. Tolstokorova, S.N. Gashev, M.N. Gasheva, A.V. Soromotin, and Ye.B. Zhdanova: Biological Recultivation of Oil-Contaminated Forest Soils in the Middle Ob Region 119

## Number 4

### Genesis and Geography of Soils

S.P. Lomov, A.A. Koshkina, and V.N. Suslikov: Soil Formation in the Pamir during the Holocene 1
R.V. Desyatkin: Soil Formation in Alases 9

### Forest Soil Science

L.A. Grishina and T.A. Baranova: Effect of Acid Precipitation on Soil Properties in a Southern Taiga Forest Ecosystem: A Laboratory Experiment 20
V.D. Shul'ga and A.N. Maksimov: Effect of Soil Flooding on the Condition of Forests of the Volga-Akhtubinskaya Floodplain 36
Do Din' Sham and A.F. Gurov: Iron Oxide Compounds in Some Forest Soils of Southern Vietnam 43

### Soil Biology

V.V. Martyushov, V.V. Bazylev, and V.I. Rerikh: Effect of Application of Tertiary Sediments on the Biological Activity of Brown Desert Soils 56
R.S. Kutuzova and O.V. Andrushchuk: Assimilative Nitrate Reduction in Soils 62

### Soil Chemistry

T.V. Pampura and A.A. Ponizovskiy: Patterns of Cation Exchange $Ca^{2+} - Mg^{2+} - Na^{+}$ in a Dark Chestnut Soil 73

A.Kh. Gazizullin and A.T. Sabirov: Iron Oxides in Major Types of Forest Soils of the Middle Volga Region 84

### Soil Mineralogy

S.A. Shoba and M.I. Gerasimova: Structural-Hierarchic Analysis and Types of Microfabric (Micromorphotypes) in Soil-Genesis Studies 103

### Soil Physics

A.G. Bondarev: Problem of Soil Compaction by Agricultural Machines and Ways of Resolving It 115
E.Yu. Nabiyev and S.B. Guseynov: Thermal Diffusivity of Soils as a Function of Physical Clay Content 122

## Number 5

### Soil Biology

V.T. Yemtsev and M.I. Chumakov: Effectiveness of Associative Nitrogen-Fixing Symbiosis in Nonlegumes 1

### Soil Chemistry

A.N. Gennadiyev, I.S. Kozin, Ye.I. Shurubor, and T.A. Teplitskaya: Dynamics of Soil Contamination by Polycyclic Aromatic Hydrocarbons and Evaluation of the Status of Soil Ecosystems 13
G.K. Zykina: Characteristics of Ionometry Used to Estimate Ion Activity in Different Groups of Soils 24
A.A. Ponizovskiy and T.A. Polubesova: Seasonal Variations of the Composition of Soil Solutions and of the Properties of Surficial Soil Particles in a Plowed Gray Forest Soil 35

### Soil Pollution

A.A. Bulgakov, A.V. Konoplev, A.Ye. Popov, Ts.I. Bobovnikova, A.A. Siverina, and I.G. Shkuratova: Mechanisms of the Vertical Migration of Long-Lived Radionuclides in Soils within 30 Kilometers of the Chernobyl Nuclear Power Station 46
Ts.I. Bobovnikova, Ye.P. Virchenko, A.V. Konoplev, A.A. Siverna, and I.G. Shkuratova: Chemical Forms of Occurrence of Long-Lived Radionuclides and Their Alteration in Soils Near the Chernobyl Nuclear Power Station 52
S.V. Kruglov, R.M. Aleksakhin, N.A. Vasil'yeva, A.D. Kurinov, and A.N. Ratnikov: Evolution of the Radionuclide Composition of Soils Near the Chernobyl Nuclear Power Station 58

B.S. Nosko: Balance of Phosphorus in Soil-Fertilizer–Plant System: A Long-Term Experiment with a Typical Chernozem 67
I.S. Khalikov and Yu.I. Savin: Adsorption and Desorption of Sulfometuron in Soils 80

### Soil Physics

V. Valles, L.P. Korsunskaya, Ya.A. Pachepskiy, and R.A. Shcherbakov: Relation between the Static and Dynamic Characteristics of the Soil Pore Space 87
Ye.M. Gusev and S.V. Yasitskiy: Effect of Mulch on Winter Soil Temperature Conditions 93
V.N. Dimo and P.I. Tikhonravova: Optimal Parameters of Heat Availability to Soils of the USSR 102

### Methods

M.M. Umarov, V.P. Shabayev, O.Ye. Konovalova, and V.Yu. Smolin: Comparative Estimation of the Productivity of Associative Nitrogen Fixation by the Isotopic and Acetylene Methods 114
Ye.M. Ir'yanova, V.P. Kovrigo, Ye.A. Ugryumova, and S.V. Len'kov: Determining the Adsorption Capacity of the Soil for Nitrate 122

## Number 6

### Soil Biology

A.Yu. Kudeyarova, I.I. Korpacheva, L.V. Davydkina, and M.Z. Kvaratskheliya: Effect of Different Forms of Fertilizer Phosphate on Biological Activity and Mobility of Organic Matter in Gray Forest Soil 1
T.I. Yevdokimova, T.F. Borzova, T.K. Bykoskaya, I.N. Skvortsova, T.Yu. Ul'yanova, and Ye.V. Filyayevskikh: Biological Activity of Irrigated and Unirrigated Chernozems of the Southern Kulunda Steppe 13

### Soil Chemistry

V.G. Mineyev and Ye.Kh. Rempe: Ecological Consequences of the Prolonged Use of Elevated and High Levels of Mineral Fertilizer 22
A.A. Popova: Effect of Mineral and Organic Fertilizers on the Status of Heavy Metals in Soils 38
N.A. Chernykh: Alteration of the Concentrations of Certain Elements in Plants by Heavy Metals in the Soil 45
N.P. Bogomazov, I.A. Shil'nikov, S.M. Soldatov, S.N. Lebedev, and V.Ye. Novogrudskiy: pH Dependence of the Agrochemical Properties of a Leached Chernozem 54
Yu.N. Chernobay and O.G. Mariskevich: Variations in Extractable Substances in the Litter of Oak Forests of the Upper Dniester Region 59

### Soil Erosion

M.I. Ismailov, M.M. Ismailov, and K.M. Mirzazhanov: Proneness of Soils to Wind Erosion as a Function of Moisture Content and Wind Speed 66
Ye.V. Agafonov: Zinc, Manganese, and Copper in Micellar-Calcareous Chernozems 69

### Soil Physics

V.P. Gordiyenko and P.V. Kostogryz: Capillary Migration of Moisture in Podzolized Chernozem as a Function of Density 74
V.P. Panfilov and N.I. Chashchina: Soil Moisture Potential and Behavior of Moisture in Soils at Field Capacity 79

### Methods

N.P. Solntseva, M.I. Gerasimov, and N.Ye. Rubilina: Morphogenetic Analysis of Soils Transformed by Technology 87
Ye.I. Arustamyants: Optimizing the Ultrasonic Preparation of Soils for Particle-Size Analysis 95
Z.N. Kakhnovich, L.A. Lerner, and V.G. Kargman: Sorptive Concentration of Cu, Pb, Cr, Cd, Ni, and Co from Natural Waters with Weakly Cationic Anion Exchange Resin in Preparation for Atomic Absorption Spectroscopy 111
M.A. Abdullayev and A.P. Magerramov: Calculation of the Heat Flow into the Soil from the Results of Remote UHF and IR Measurements 121

## Number 7

### Genesis and Geography of Soils

A.I. Tsatskin and N.P. Chizhikova: Soil Formation in the Pleistocene in the Upper Don River Basin, from Micromorphological and Mineralogical Data 1
A.V. Yevseyev: Holocene Buried Soils of the Northern Zone of West Siberia and the Initial Stage of Soil Formation 13
B.G. Rozanov: Once again on Desertification 22

### Soil Biology

A.M. Yermolayev, L.T. Shirshova, I.F. Medvedeva, and S.S. Bykhovets: Variations in Cellulose-Decomposing Activity of Gray Forest Soil under Sown Pastureland as a Function of Management Technique 32
I.Kh. Uzbek: Enzymatic Activity of Recultivated Soils 41

### Forest Soil Science

V.N. Vtorova: Biologic Cycle of Substances in Spruce Forests at the Lower Tree Line in the Northern Tien-Shan 47

**Soil Chemistry**

V.A. Chernikov, V.A. Raskatov, and V.A. Konchits: Composition and Properties of Fulvic Acid Fractions from Chernozems 61

**Soil Physics**

V.A. Kapinos, Yu.V. Yegorov, and Mustafa Darvish Omar: Drying Kinetics of Soils 73
I.N. Solov'yev: Hydrologic Ecologic-Genetic Profile of a Virgin Chernozem in an Unmowed Steppe 82

**Methods**

Z.M. Petrova and I.S. Ostapenko: Determination of the Phenomenological Coefficients Describing the Transfer of Electrolyte through Soil 93
Ye.I. Arustamyants: Instrumental Methods for Determining the Particle-Size Composition of Soils 101
D.L. Pinskiy, A.O. Alekseyev, and T.V. Alekseyeva: A New Method of Preparing Fine-Soil for X-ray Analysis 118

## Number 8

**Genesis and Geography of Soils**

B.G. Rozanov and Ye.M. Samoylova: Possible Alteration of Soils in the Steppes of Eurasia by Human-Caused Climatic Change 1
Zh.A. Kapilevich, L.K. Tselishcheva, and A.V. Vysochenko: Transformation of Soils Developing on Glacial-Lacustrine Clays after Drainage 9

**Agricultural Chemistry**

Kh.A. Kyarblyane and E.Yu. Nugis: Assimilation and Effectiveness of Superphosphate as a Function of the Degree of Compaction of the Plow Layer 19
L.T. Fevraleva, T.A. Fedorova, and Ye.T. Bobrikova: Uptake of Natural Radionuclides from Irrigation Water by Crops 26

**Soil Chemistry**

A.Yu. Kudeyarova, L.V. Davydkina, M.Z. Kvaratskheliya, and I.I. Korbacheva: Ability of Phosphate to Replace Organic Compounds in Soil Organomineral Complexes 31
N.P. Bogomazov, I.A. Shil'nikov, S.M. Soldatov, and S.N. Lebedev: Effect of the pH of Leached Chernozem on Mobility of Iron and Microelements (A Model Experiment) 44
V.A. Kalachikov: The Role of Zinc in Eliminating Nitrophenol Toxicity in Soils 47
Yu.N. Vodyanitskiy: Analysis of the Distribution of Curves of Iron Compounds over the Soil Profile 59

**Soil Biology**

S.Sh. Nimayeva: Biological Activity of Meadow-Chernozem Permafrost Soils 67

**Soil Physics**

P.I. Tikhonravova: Evaluation of the Thermophysical Properties of Soils of the Solonetz Complex of the Trans-Volga Region 75

I.I. Sudnitsyn, O.N. Troyno, and N.V. Toritsyna: Tension of Soil Moisture, Its Movement and Uptake by Vegetables in an Irrigated Sod-Podzolic Soil 88

**Soil Melioration**

A.M. Ayvazov: Effectiveness of Drainage during the Reclamation of Salt-Affected Fine-Textured Soils 97

**Soil Pollution**

I.G. Vzhenin: Degradation of the Fertilizer of Chernozem Soils as a Result of Industrial Activity 105

**Methods**

V.N. Kudeyarov and T.V. Kuznetsova: Use of the Balance Technique to Determine the Extent of Nonsymbiotic Nitrogen Fixation in Soil 118

## Number 9

**Genesis and Geography of Soils**

N.B. Khitrov: Morphometric Description of Slickensides Structures in Compact Chernozems of the Stavropol Region 1

**Agrochemistry**

I.A. Ivanov and A.I. Ivanov: Effectiveness of Fertilizers Applied to Sod-Podzolic Soils Containing High Levels of Phosphorus and Potassium 13

T.V. Chirkova and V.A. Belonogova: Nitrate Reductase Activity and Productivity of Grain Crops under Waterlogged Conditions 19

**Soil Biology**

N.I. Bazilevich and N.G. Tsarevskaya: Some Properties of Biochemical Cycles in Meadows of the Forest Zone of the USSR 30

R.S. Kutuzova, Zh.M. Tribis, and T.K. Ortikov: Nitrification Inhibitors and Saprophytic Soil Microflora 49

### Soil Fertility

A.S. Meyerovskiy, M.P. Samoylovich, and S.A. Kas'yanchik: Potassium Conditions of Meliorated Sod-Podzolic Gleyish Soils 64

### Soil Chemistry

N.V. Larionova: Nitrogen Conditions in Sod–Slightly Podzolic Soils of the Northern non-Chernozem Zone of the RSFSR 72
N.N. Pigareva: Potassium Conditions of Meadow-Chernozem Permafrost Soils of the Buryat USSR 79
Ye.A. Khlestkova: Use of Some Indices of the Humus State of the Soil for Diagnostic Purposes 85
N.K. Ivanenko and V.N. Pereverzev: Potassium in Podzolic Soils of the Kola Peninsula 94

### Soil Mineralogy

P.L Falyushin, T.Ya. Kashinskaya, and N.V. Shevchenko: Alteration of Iron-Containing Minerals in Peat as a Result of Autooxidation 106
M.V. Gvaliya, B.P. Gradusov, and N.P. Chizhikova: Comparative Description of Mineralogical and Chemical Composition of the Clay Material of Yellow Earths and Krasnozems of Abkhazia 112

### Soil Pollution

Ye.P. Buravlev, M.N. Lebedinskiy, S.K. Drich, and V.K. Chumak: Migration of Cs-137 and Ce-144 in Soils of the Evacuated Zone around the Chernobyl Nuclear Power Plant 121

## Number 10

### Genesis and Geography of Soils

A.S. Vladychenskiy, N.Yu. Vlasova, and N.Ya. Dronova: Some Characteristics of Soils and Soil Formation in Juniper Forests of the Tyan-Shan Range 1
L.Yu. Reyntam and M.R. Tsobel': Soil Formation on Calcareous Moraines in the Littorina Transgression Zone 15
V.V. Dobrovol'skiy: Geochemical Characteristics of Soil Formation on Sea and Ocean Islands and Shorelines 25
N.A. Grabetskaya and V.G. Chigir: Differentiation and Alteration of Materials in the Active Layer of Patchy Tundra on the Southwest Taymyr Peninsula 38

### Soil Chemistry

T.A. Sokolova and Nguen Tkhi Tung: Cation Exchange Capacity of the Major Groups of Vietnamese Soils Used in Agriculture 55

G.D. Chimitdorzhiyeva: Characteristics of the Organic Matter of Cryogenic Soils 68

**Soil Erosion**

Z.P. Kiryukhina, G.A. Larionov, L.F. Litvin, and A.V. Patsukevich: Eroded Soils: Current State and Predicted Changes 77
Lajos Szabo: Erosion Control Measures in Africa 86

**Soil Pollution**

L.V. Surkova and R.I. Pogodin: Status and Forms of Occurrence of Cesium-137 in Soils as a Function of Distance from the Chernobyl Nuclear Power Plant 100
V.B. Il'in: Heavy-Metal Pollution of Vegetable-Garden Soils and Crops in the Cities of the Kuzbass 104

**Soil Physics**

K.Yu. Khan, M.S. Kuznetsov, M.P. Volokitin, B.K. Son, and R.T. Samoylov: Determining the Resistance of Soil Aggregates to Breakup by Drop Action 115

Contents for 1991 121
